

School Experience Days at Southwater Infant Academy, Trafalgar Community Infants and Castlewood Primary

Thinking of Teaching, but need some School Experience?

Gaining classroom experience before starting your initial teacher training (ITT) can help you be sure that a career in teaching is right for you. It can also support your application for ITT by spending some time in a classroom and speaking to experienced teachers, school staff and students.

Our programme will give you the experience of a typical day in an infant or primary school and provide you with the opportunity to talk about teaching to teachers and trainees.

The day will include: A tour of the school, observation of a variety of lessons, a chance to meet with senior leaders and teaching staff and an opportunity to ask questions regarding the School Direct Programme.

When and where: School Experience Days are held at Southwater Infant Academy, Trafalgar Community Infant School and Castlewood Primary once a month from January 2019.

More information: To book places on the School Experience Day you will need to register at the SEP Programme, follow this link to register.
